OTHER PROJECTS

Thea Role Play Community – [Second Life]

- ◆ Managed a sizable community for role-playing in a fantasy setting based on the Final Fantasy® franchise
- ◆ Created a metered combat system through Second Life's LSL scripting libraries and integrated them with MySQL databases for character stats management

"The Nightars" (Mod) – [Starbound: Races]

- ◆ Continuation of a well-received mod from its previous author
- ◆ Added more content and began closer integration with Starbound's top featured mod, Frackin' Universe
- ◆ JSON and Lua scripting for more dynamic content, created custom and redesigned existing graphics for various assets

PROFILE

With years of experience in customer service and a diverse array of technical skills, my goal is to provide quality support to those in need. I am capable of adapting and evolving with the digital world and I'm always looking for ways to enhance my skills. I seek a company that will allow me to flourish, and in turn, provide you with what you need and more.
